

COLORADO

Department of Health Care
Policy & Financing

Dear Stakeholders,

The Department of Health Care Policy & Financing (the Department) has pulled the Colorado Indigent Care Program (CICP) Regulatory Review rules from the Medical Services Board's final adoption. This decision was made because the Department wants to review the definition of homelessness and discuss with the CICP Advisory Committee at the July meeting.

Any questions about this change can be directed to [the CICP dedicated inbox](#).

Thank you,

The Department of Health Care Policy & Financing
